Spelling		Generally very little, but Nature appeals to him. Robin has been working on 5-leaflets for 2 terms for a time in I.B. He is learning to narrate but does not concentrate well.		He shows promise in narration & fine clear ideas. Robin can narrate very well, but must work harder especially in Reading.		Narration has begun with some good things. Robin's narration can be called. Reading is still disappointing.

This short term has plenty handicapped in French history promises grammar. I till about the 3rd wk. About 1.
 Dryden is a promising pupil & is learning to narrate. He did not join I till about the 3rd wk. About 1.
 Much interest in Nature. Other subjects with some improve.
 Dryden has worked well this term. Reading satisfactory.

Sept.

English & Grammar & some recitations excellent though she should not have needed to dictate. No medical history. No other to note. She has dictated them all.

[illegible]

Some good answers. her work has evidently suffered through interruption.

A fair paper but she is inclined to fault it at present, and her mind seems to have gone rambling when some of the stories are being told.

Mary still reads slowly - the other work is more advanced in comparison.

Often very good but sometimes a little confused. Good intelligent work - a slow worker in mathematics.

Often very good work. She promises to have a good command of English - expressions & idioms. Satisfactory work. Mathematics through she below standard is gaining ground to about 70.

Not always strong but there are some very good thoughts & essays. Has killed from 50 words a day in vocabulary. Math. Higher than other subjects but not below standard in always gaining ground. Writing is still slow - hence overdone and required answers to be made. About 80.

Left Xmas 1936.

A good paper on the whole - some subjects are strong, others rather short - uncertain. Marjorie work shows a steady general improvement - oral narrations more fluent. Arithmetic nearly up to T.B. standard but not least metric system. About 0.

Very good work in many subjects intelligently and well reported. Writing, spelling are good. Marjorie is not up to her form in French, Latin, German. She has done good work in 122 places.

Often very good but there are some weak places. Marjorie's work shows steady improvement.

Sometimes goes but not often - he working does not he back, but there is some lack of knowledge too.

Nary's oral work is good but writing is still a labour.

Sometimes good but generally she has not much to say yet. Spelling something not strong yet. Has worked well in Latin.

A fair paper. The composition is good. Nary is becoming more in machine. Has made great efforts in Arithmetic but examination about 0.

Good on the whole. often very good especially Geography - growing stronger but still too short and incomplete. About 0.

Much very good work - her English shows real promise. She has a strong memory it can also express herself in her own words looking quite poor.

Leonora's work is slender & narrative filler. Latin has improved very much but is still below form standard.

Good on the whole, but she makes good use of diagrams.

Leonora's work is intelligent & is becoming fuller.

Very poor. The painting shows interest & promise. History poor.

Generally good work. E.K. Has done satisfactory work. I.M.

Good on the whole. often very good.						
Margaret is not outstandingly good in any one subject but works steadily on always. Latin, French becoming much more accurate. About 1.						
the shows intelligence & interest & spirit to her place in the form down 'Moral' will doubt take show promise in Mathematics.						
Margaret has found with form book difficult. The full programme not followed. No geology About 0						
truly part of the literature.						
A good paper on the whole. Structure weak. She shows much interest in these. Margaret into characteristic words not think deeply. Algebra & Latin are better standard but not so well as French. Maths well seen. This is her best term & school. About 5.

Time About 2.

No Examination taken owing to illness.

There are one or two very full - Good Narrations, which show much can get into the mind. But the up-to-date narrative is slow. This is his first examination.

When he gets going he narrates very well and should save some strange Walton turns for more than his usual share.

She can narrate as the narrator with shows in other subjects are so confused. Barbara is already extremely nervous & keeps with it, make it the two due to the very good work can narrate with. Is gradually becoming stronger. Better known in the beginning. About 0.

No Examination

Taken during

to illness.

Not very strong yet. Though she is interested. Barbara can do good work.

Sometimes good. Generally rather meagre. Barbara's work varies according to her physical 'jumpiness'.

Very fair: sometimes narrated well, but generally short as yet. Writing is a difficulty. time is without -

Good on the whole though rarely always short. Time is intelligent & good narrator. Writing always a difficulty.

Her writing has made a good advance. Her narration is beginning to make the effort. Reading has progressed well this term. Bible seems to be given.

She has made a good try certainly has an idea of narration by expressing herself in paint. Her writing is beginning to narrate quite well in school though at times has nothing to say. Her handwriting is making satisfactory progress.

She can express herself in paint. Narration was not good yet. Jean has been about a great deal.

131. Urula Pater (contd. from page 79)

Painting is very good. Navigation & Maths. sp. weak.

Much good & interested work. V.K.

Steady & intelligent. No Physiology paper as extra time is being given to Botany in preparation for C.S.C. I.M.

The ground has been covered well but reports are sometimes rather meagre. e.g. Science. Out of his depth in Maths. Absent. Beryl has found form I work interesting. Special Language & Botany examinations marked strictly with a view to C.S.C. I.M. 2.

The ground has been covered well but reports are sometimes meagre. e.g. Science. Thoughtful & good work as a unit. sp. Has found form I work interesting. sp. Botany & Language occurs marked strictly with a view to C.S.C. I.M. 2.

A good paper - often very good, esp. drawing - E.H. Has achieved much this term - satisfactory all round except for native work which she has neglected. will prepare for C.S.C. next yr. extra time given to Biology in Geog. Period. Since only one geography question attempted. How she does come out not standard. F.H.

He has made a good try and will grow stronger.

Miguel has done a good fair work in spite of being absent for more than 2 weeks.

George and Nature both interest him with good effect.

Miguel's work is becoming stronger all round.

He has made a good try but navigation is not very full yet.

Nigel's narrations are becoming longer. Number & Reading are very good.

A few papers. He shows interest in French. He becomes stronger recently his work might be for good. Arithmetic & Reading are good but with more encouragement.

Algebra very good, writing needs care. Always shows interest.

French and Latin should show catch up. Worker and intelligent.

Some very good work with some weak places, esp. General History. Math. strong. Writing best. Spelling good. Felicity's work is more solid. She lacks self-confidence. Languages are stronger through writing.

Very few. There are good answers but some are very weak. Very few. There are good answers but some are very weak. Very few. There are good answers but some are very weak.

A good try but often wrong. Native painting shows much interest.

He has been able to put down some clear ideas already and is expressing himself with a brush. Myles rarely says anything in lessons but I feel is taking in quite a lot. Reading slow.

He has made a good try & shows interest. Myles is still slow in narrating but his work is better than examinations show. Reading is very slow. Number in school is very good. Examination disappointing.

His Geography shows that he has intelligence. He has much more to go. He will seldom say anything about it.

146009 Betty Horne

What she can make is possible and she will soon grow strength.
Betty's first term at school and she has made a promising beginning.

Something excellent - but you rather short.
Betty is now narrating in school in an interesting paper. Reading improved. Number Times about 5.

At this time she does not narrate very fully yet. Betty does not say much yet but is beginning to narrate - Reading & Arithmetic slow. About 7.

She has made a good try & can narrate well.
Betty has been about during the day of examinations.

Nearly always very good. She shows promise. Kalklee's work satisfactory all round.

Good on the whole - Amclure short. Kalklee is a keen steady worker, Nervous at very first.

Navigation often very full & good. Kalklee has been absent during the Spring term.

There are other good reports, but many are short - e.g. Nature. The writing needs care at times in P.U.S. Maths. Other work satisfactory. Absent 2.

This paper, structure good. Painting shows improvement. Spelling much better than writing. Weak as a rule, with, seemingly, a rather off hand attack. V.K. work too erratic to be really satisfactory. I.M.

Not very strong yet. Spelling much better than writing.

Weak as a rule, with, seemingly, a rather off hand attack. V.K. work too erratic to be really satisfactory. I.M.

Sometimes good but then on weak places. E.K.

Daphne does not work as hard as she has been improving this term. I.M.

After good but sometimes confused. E.K.

Work shows considerable improvement but more continuous effort still required. I.M.

Good conscientious work, often very good. E.K.

Has found some subjects in her first term in Form II difficult, especially Science. Harder work required. Only handwriting new. Regional Geog. studied - extra time given to Biology & Botany with a view to C.S.C. I.M.

Generally good with some weak places. E.K.

Work is improving but still she does not work hard enough. I.M.

Sometimes good work. E.K.

Work is still not what it should be. It varies too much - sometimes very good showing interest & keenness, but sometimes superficial & disappointing. I.M.

149CH159

149. Simone Hayward

Subjects	Summer Term	1936
Bible Lessons	80	she has made a good start, in spite of a handicap of writing & spelling. Nature shows much intelligence & interest. Simone came at high level only knew some questions & answered. Her work in P.U.S. in the Argentine. Any satisfactory pupil. A beginner in French - no exam.
